Engaged Learner and KS

Innovations in eLearning
Symposium
June 8, 2005
The Problem/Opportunity/DAU’s Mission:
Train and provide job performance support to the AT&L workforce, on cradle to grave AT&L processes required to field, operate, maintain and retire weapon and support systems.
AT&L Performance Learning Goal – Creating an Environment Where We Support the AT&L Workforce Before, During, and After Training Events – Learning at the Point of Need

Balancing Career Development With Performance Learning

Career Field and Business Process On-Line Knowledge Communities
The ACC is a nest of integrated collaborative spaces that includes:

- Communities of Practice
- Special Interest Areas
- Workspaces
- DAU Course Spaces
Collaborative spaces have their own identities focused on specific aspects; but they are also integrated where appropriate and there is overlap.

Mission Support Contracting is a good example of this.

Each is also a Mission Area in the MSC.
The EVM training center provides a series of online references and training resources. The learning materials topic includes a series of online training modules. The "Fundamentals of EVM" series are designed for the EVM novice and introduce key EVM concepts and processes. The "Earned Value Special Topic" series are prepared at the intermediate level for members of the EVM community who are already familiar with EVM nomenclature and fundamental concepts. The reference materials include the DAU Gold Card and other reference cards submitted by members of the EVM community.

Interactive DoD 5000 Documents
Defense Acquisition Guidebook System

Welcome to the Defense Acquisition Guidebook Homepage

The purpose of the Guidebook is to provide members of the acquisition community and our industry partners with an interactive, on-line reference to policy and discretionary best practice. Consider the Guidebook a valuable resource as you design your programs.

NAVIGATION

When you enter the Guidebook, you will see the tab structure illustrated below. Each tab provides a different view of Guidebook content.

- Select the Document View tab to review Guidebook information page-by-page.
- Select the Lifecycle Framework View tab to review statutory and regulatory requirements and related best practice for each milestone and acquisition phase.
- Select the Functional/Topic View tab to review comprehensive discussions of key acquisition topics.

To maximize the utility of this system, we recommend you use a computer that has Internet Explorer 6.x or higher at a resolution of 1024 x 768 or higher and has JavaScript enabled. The hardware requirement is whatever is necessary to support Internet Explorer 6.

TUTORIAL

A more detailed discussion of Guidebook capabilities can be accessed via the Guidebook Tutorial. You are encouraged to review the tutorial to understand all the capabilities the Guidebook provides.

SECTION 508 & PRINTABLE VERSIONS

Special .pdf versions are available that are Section 508 compliant. The .pdf versions may also be used to print a copy of the Guidebook, however the links may not all be active. For help with printing go to the Help Section.

The Integrated Defense Acquisition, Technology and Logistics Life Cycle Management Framework Chart is an essential aid for defense acquisition professionals, and a workflow learning tool for AT&L professionals and Defense Acquisition University (DAU) courses. It serves as a pictorial roadmap of most key activities in the systems acquisition process. The chart is based on information in the Defense Acquisition Guidebook and key DoD policy documents such as the 5000 Series and CJCS instructions, and illustrates the interaction of the following three major decision support systems:
Decision Support System View

User / Visitor can navigate using the “Tabs” at the top or by clicking on a “Decision Support System”

Development Steps to Fully Functional AT&L Search Tool

- Refined/Expanded using modified AKSS Advanced Search – MAY 05
- Upgrade from Convera 7 to Version 8.1 Expanded and Applied to All DAU Web Page Applications – August 05
- Launch 1.0 Version of ACQuire – September 05
- Develop Framework Chart Linking to Saved Searches – September 05
- Linked to the DAU Taxonomy Tables – FY06
- RSS, and Video Search – FY06
- Full 2.0 Version ACQuire Tool Including Personalization for All Users – FY06

PBL Implementation Model

- Integrate Requirements & Support
- Form the PBL Team
- Baseline The System
- Identify Performance Outcomes
- Implement And Oversight
- Financial Enablers
- Accomplish Contracts
- Business Case Analysis
- Establish PBAs
- Select PSI
- Workload Allocation Strategy
- SCM Strategy

Toolkit Goals:
• Provide PM & Logistics Managers with step by step process & readily available resources to support the design and implementation of PBL strategies.

Access to:
- Explanations
- References
- Templates
- Examples
- Training LOG 235
- CL Modules
- Expertise – LOG CoP
